Dear Customer,

Re: RoHS compliance for product range M40-9000099 to M40-9110099.

I can hereby confirm that the above product range is fully compliant to the RoHS legislation, otherwise known as the EC Directive 2002/95/EC on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (RoHS). The product range is constructed with the following:

M40-9000099 to M40-9070099, M40-9100099 to M40-9110099:

- The contact is Phosphor Bronze – although this may contain a trace percentage of lead, the legislation allows for up to 4% lead content within copper alloys.
- The contact plating is 100% Tin over Nickel, and is therefore fully compliant.
- The wire is PVC equipment wire, specified as RoHS compliant.

If you have any further questions regarding this letter, please do not hesitate to contact me.

Yours faithfully,

Miss Wendy Jane Bourne, BEng
Technical Support Engineer & RoHS Compliance Project Manager
