Dear Customer,

Re: RoHS compliance for product H3151-XX.

I can hereby confirm that the above product range is fully compliant to the RoHS legislation, otherwise known as the EC Directive 2002/95/EC on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (RoHS). The product range is constructed with the following:

H3151-01:

- The base material is Brass – although this contains a small percentage of lead, the legislation allows for up to 4% lead content within copper alloys.
- The plating is 100% Tin over Nickel, and is therefore fully compliant.

If you have any further questions regarding this letter, please do not hesitate to contact me.

Yours faithfully,

Miss Wendy Jane Bourne, BEng
Product Engineer & RoHS Compliance Project Manager
