Dear Customer,

Re: RoHS compliance for product range M40-120XX00.

I can hereby confirm that the above product range is fully compliant to the RoHS legislation, otherwise known as the EC Directive 2002/95/EC on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (RoHS). The product range is constructed with the following:

M40-120XX00 (XX = Total no. of contacts):

- The connector moulding is PBT - this plastic is fully compliant. As this product is a crimp connector, and is therefore not designed for use in soldering processes, this material cannot be guaranteed that it will be resistant to the higher soldering temperatures evident in lead-free soldering processes.

If you have any further questions regarding this letter, please do not hesitate to contact me.

Yours faithfully,

Miss Wendy Jane Bourne, BEng
Technical Support Engineer & RoHS Compliance Project Manager
